

Petition Against the Implementation of EVSC

EXTERNAL VEHICLE SPEED CONTROLS

We the undersigned utterly oppose the compulsory fitment to privately owned vehicles of any device designed to arbitrarily remove control from the driver to remote operation.

We note with extreme concern the tendency of governments to impose ever more intrusive and restrictive regulations upon the citizen.

We caution governments to remember that they are permitted to govern only by the consent of the people and that such consent when given through an election does not grant unlimited licence to interfere in the daily life of the citizen.

We further caution all governments that to impose unduly on popular freedom is to imperil the respect in which government and the rule of law is held.

We specifically and emphatically reject the compulsory application of all forms of external vehicle speed controls to motorcycles.
